Summary

Ambitious and motivated Cybersecurity student at Cairo University (Faculty of Computers and Artificial Intelligence, Year 3), specializing in Web Penetration Testing and Bug Hunting. Part-time Bug Bounty Hunter on HackerOne and Bugcrowd, with experience in discovering and responsibly disclosing multiple vulnerabilities. Actively developing hands-on skills through Hack The Box and Web Security Academy labs, currently preparing for the CRTP certification, and beginning my Android development journey with a solid understanding of the basics. Passionate about CTFs, ethical hacking, mobile security, and advanced web exploitation techniques, with strong technical, analytical, and problem-solving abilities.

Experience

MCS | Intern

Aug 2025 - Present

- Assisted in vulnerability assessment and penetration testing tasks.
- Gained exposure to enterprise-grade cybersecurity tools and practices.
- Discovered and responsibly disclosed multiple web vulnerabilities as part of internship tasks and personal research.

CIB Bank | Intern

Jul 2025 - Aug 2025

- Worked on security-related tasks and observed real-world banking cybersecurity operations.
- Developed knowledge in secure systems, risk management, and compliance.
- Assisted with security findings documentation and remediation recommendations.

Bug Bounty / Security Research | Bug Bounty / Security Research

- Found and reported multiple security issues to vendors and through bug bounty platforms (HackerOne, Bugcrowd).
- Performed end-to-end vulnerability validation, PoC creation, and coordinated disclosure with vendors to ensure timely mitigation.
- Prepared clear technical reports and remediation guidance for developers and security teams.

Education

Cairo University, Faculty of Computers and Artificial Intelligence | *B.Sc., Cybersecurity and Networks*

2023 - 2027

Skills

- **Programming & Scripting:** Python, C++, Java, JavaScript, PHP, HTML, Bash, SQL
- **Cybersecurity Expertise:** Web Application Security(Advanced), Active Directory Penetration Testing (beginner), Cryptography, Linux Systems

Certifications & Training

- Cisco CCNA: NTI – 2024
- ECPC: 2024
- Cybersecurity Camp: NTI – 2024
- English Course: NTI – 2024
- CRTP: 2026 (only content)
- IBM Introduction to Cybersecurity: 2025
- Internship Certificates: MCS, CIB Bank
- eWPTX: 2025 (only content)
- CWES: 2025 (only content)

Achievements & Competitions

- Qualified to the Finals in my first CTF competition and finished 8th in the final round.
- Discovered and responsibly disclosed multiple web vulnerabilities to vendors and bug bounty programs, including Opera, Linktree, Porsche, Headspace, skoda, guidebook, Infomaniak, and Informatica.
- Reported over 24 security vulnerabilities in Škoda as part of my team's coordinated research efforts, including a critical SQL Injection leading to RCE.
- Competed in CYCTF 2025 and ranked 24th overall, solving 3 Web challenges, nearly completing a 4th before time ran out, and solving 3 Crypto challenges.
- Achieved 5th place in zinad CTF 2026.
- Achieved 5th place in the CyberTalents (Egypt National Cybersecurity CTF 2025).
- Achieved 1st place in CYCTF Luxor 2026 in Finals.
- Identified and reported 4 critical vulnerabilities in Škoda Auto systems, including Remote Code Execution (RCE), SQL Injection, Blind Cross-Site Scripting (XSS), and Path Traversal.
- Ranked 4th worldwide in CIT CTF with team Ast3roids.
